

Enrollment & ACP Demographics

- Effective February 8, 2024, the ACP is no longer accepting new enrollments.
- As of the date of the enrollment freeze, there are 23,269,550 households enrolled in the program.
- 17+ million urban households are enrolled in ACP
- 3.2 million rural households are enrolled in ACP
- More than 1 in 6 U.S households benefit from ACP
- Nearly half of the households benefiting from ACP are military families
- Four million seniors and 10 million Americans over the age of 50 benefit from this program every month
- 1-in-4 households participating in the Affordable Connectivity Program are African American and 1-in-4 households are Latino
- The Affordable Connectivity Program provides an enhanced monthly subsidy to 320,000 households on Tribal lands, where high-speed internet is generally more expensive.

Consumer Benefits

- 1,700 + participating internet service providers
- 8 million + devices distributed
- 46% of enrolled households use ACP for fixed connections in the home

ACP Funding and Internet Service Providers (ISP's)

- FCC launched ACP in November 2021 with \$14.2 billion in funding
- Charter Communications have received over \$3 billion in ACP federal funding
- The top 10 ACP providers by funding received as of April 2023 were Charter Communications, Q Link Wireless, Tracfone Wireless (which is now owned by Verizon), Comcast , T-Mobile, AT&T, Excess Telecom, Sage Telecom, Dish Wireless and Cox Communications.

- Other major providers, including Verizon (\$18.2 million) Mediacom (\$8 million) and Consolidated Communications (\$35,229) had received substantially less.
- Companies that rolled out low cost or no cost plans:
 - **Verizon** is moving Maryland ACP subscribers (unclear if other states too) to a low-cost plan
 - **USI Fiber** is keeping ACP subscribers on a free plan indefinitely
